

MORE THAN MEETS THE EYE

INTELLIGENT VIDEO SECURITY SOLUTIONS

Provide better security for your employees, premises and surrounding areas from MOBOTIX & Konica Minolta.

Network Assurance: Konica Minolta offers proactive video network monitoring to assure optimal uptime for your network. Don't be caught in the dark!

Security Monitoring Services: Konica Minolta can easily augment and supplement your security monitoring needs by extending the reach of your security team.

Behavioral Analysis: Be aware of traffic patterns and direction movement with MOBOTIX camera people counting and heat mapping.

Perimeter Protection: MOBOTIX cameras can detect movement along your perimeter any time of day or night, even in total darkness, providing the ultimate defense.

Indoor Surveillance: Continuous monitoring with MOBOTIX cameras of your property helps protect people and material assets.

Moonlight Technology: MOBOTIX Moonlight Technology provides unprecedented image quality in very low light situations.

Entry Control: With a MOBOTIX video, intercom, RFID/Keypad solution – you can control access to sensitive areas of your business or campus.

Hemispheric View: MOBOTIX hemispheric cameras provide a full 360 degree view to view all the activity.

Deterrence: Stay ahead of potential intruders, vandals, bullies and thieves with notifications, alerts and alarms of activity in specified areas.
